|  |                                    |     |                 |  |
| 1. Outline   |                                    |     |                 |  |
| Explain bri  | iefly functions and feature.       |     |                 |  |
|  |                                    |     |                 |  |
|  |                                    |     |                 |  |
|  |                                    |     |                 |  |
|  |                                    |     |                 |  |
|  |                                    |     |                 |  |
| Describe the URL which helps to understand the activities. |                                    |     |                 |  |
| URL  |                                    |     |                 |  |

| 2. Purpose and Aim   |
|--|
| Describe the purpose of development, aim and market targeted, etc. |
|  |
|  |
|  |
|  |
|  |
| 3. Reason why you focus on Ruby                                    |
|  |
|  |
|  |
|  |
|  |
| 4. Feature of software / business model / Activity                 |
| 1) Describe the feature (selling point, utility).                  |
|  |
|  |
|  |
|  |
|  |
| 2) Describe the novelty, innovativeness.                           |
|  |
|  |
|  |
|  |
|  |
| 3) Describe the impact given to the industry and the society.      |
|  |
|  |
|  |
|  |

| 5. Achievement  |
|---|
| Indicate the specific achievement, concrete feedback from the market.                 |
|   |
|   |
|   |
|   |
|   |
| 6. Development  |
| Describe purpose and business deployment in the future.                               |
|   |
|   |
|   |
|   |
|   |
| 7. Accompanying material (The application submitted and accompanying material are     |
| not returnable)   |
|   |
| Outline drawing of activity, briefing paper, article of newspaper and magazine etc.   |
|   |
|   |
|   |
|   |
| O. C. ft  |
| 8. Software requirements  |
| Indicate hardware requirements (OS, software of precondition, hardware configuration) |
|   |
|   |
|   |
|   |
